

A close-up photograph of a yellow and white striped surface, possibly a wall or ceiling. The stripes are horizontal and run across the frame. A prominent diagonal seam or crease runs from the top left towards the bottom center. The lighting is even, highlighting the texture of the material.

Plan view of a fountain installation. The central feature is a rectangular 'Fontänenfeld' (fountain field) with a grid of water jets. This field is flanked by two long, narrow 'Schlitzröhre radial' (radial slot tube) elements. The entire installation is set within a paved area, with a dashed line indicating a boundary or path. Silhouettes of people are shown for scale.
